- **Recent lifting of Governor's Executive Order allows General Fund contracts to be reinstated**

# Program Activities

- **Study and sample design**
  - In progress
    - Focus still on statewide sample
  - Considerations for community studies
- **Questionnaire development**
- **Field Protocols/Cost Model**
- **Laboratory activities**

# Chemical Selection Update

- At June 2008 meeting, SGP named eight chemical groups to investigate as potential designated chemicals:
  - Diesel exhaust
  - Flame retardants
  - Antibiotics in animal husbandry
  - Hormones in animal husbandry
  - Methylsiloxanes
  - Pesticides
  - Vanadium
  - Plasticizers
- SGP identified additional chemicals for further investigation:
  - Common household products (e.g., glycol ethers in cleaners)
  - Nitrosodimethylamine (NDMA)
- Work group formed at June 2008 SGP meeting
  - 4 SGP members, CECBP staff
  - Meets approximately monthly
  - Materials being drafted for December 2008 SGP meeting
